### REASON FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance: The prior art of record (US Pat# 6,259,676, **06/17/1998**) teaches an upgrading of subscriber connection comprising of an access node (2) comprising of a splitter in addition to a test unit to test a telephone line for its ability to carry digital signals. Schneider (US Pat# 6,215,855, **01/21/1999**) teaches a loop certification measurement for ADSL in (fig. 4) comprising of a splitter in conjunction with a signal generator for testing a subscriber line for its ability to carry digital signals. Yoshida et al. (US Pat# 6,205,202, **03/15/1999**) teaches a subscriber line tester in (fig. 14) comprising of frequency splitter (5) in addition to other components for testing a digital subscriber line.

The prior art of record fails to meet the priority data of the claimed subject matter comprising of an active POTS splitter comprising an active splitter circuitry to be connected to a subscriber line for separating analog POTS signals from XDSL signals; and line test circuitry associated with the active splitter circuitry for transmitting a test signal on the line based upon at least one of a request and event signal, the line circuitry having associated therewith a unique code transmitted with the test signal as claimed and substantially connected in claims 34-63.

In summary, the apparatus used in testing a subscriber line for its ability to support digital services is not taught by the prior art of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
